You can rely on our in-depth colour know-how which has shaped the choice of the four on-trend paint finishes available from stock: Alabaster, Putty, Soft Grey and a new, more intense Seal Grey. And take your pick from a similarly pared down, but carefully-chosen, collection of accessories.

However, the added attractiveness of Simply Burbidge is that if you do want to play around with colour options to create statements, clever contrasts or enhance living zones, then take your pick from the 25-strong complete Painted palette or even more confidently, opt for Bespoke Painted.

KEW

A fresher, sharper take on the traditional shaker form, with a luxury painted finish that reveals the desirable and unique patterning of the solid ash framing.

Kew adds an easy sense of space to your kitchen, thanks to lengthening lines and the soft neutrality of the Simply Burbidge range palette. Hide away everyday crockery and food stuffs with integrated shelving and plate racks – or confidently display with on-trend decorative open units in a variety of sizes.

From our UK manufacturing site, we can expertly create curved doors for this range along with made to measure kitchen door sizes, because we know your kitchen and the space within it should be unique to you.

Embrace Kew's clean form by specifying strong rows of cabinetry and striking islands or turn to the two different glass door options available for this range – a simple frame or an elegantly mullioned glazed door to create showpiece features.

THE - DETAILS -

WITH DECADES OF KITCHEN DESIGN EXPERTISE, WE KNOW THAT THE SMALLER DETAILS CAN HAVE A KEY IMPACT ON THE OVERALL SCHEME AND GLASS DOORS ARE ONE OF OUR CURRENT OBSESSIONS.

With these kitchen stalwarts witnessing a resurgence by being warmly welcomed in traditional and highly modern kitchens alike. Maybe it is the straightforward textural benefits that they bring – adding interest and light to a design. Think about using contrasting colours to set your glass door against your cabinet; typically lighter to add interior depth and colour distinction.

Whether in a simple frame or decoratively mullioned, they can effortlessly be used to inject additional character into a classic scheme or an eclectic tweak against a modern door style. Especially appealing is our availability of made to measure sizes, so why not incorporate some feature pieces such as decorative glass top boxes or elegantly proportioned banks of glass cabinets.

More minimalist kitchens are similarly embracing glass, tapping in to architectural letterbox shapes to offer suggestive glimpses into cabinets and opaque glazing for subtle texture.

But above all it seems to be a behavioural trend that is driving the popularity of glass doors and dressers. Homeowners want to proudly – and often creatively – display glassware and dinnerware, whether they are a hoarder of vintage favourites or a collector of co-ordinated cookware.

BARNES

Rest assured you are investing in great quality with the simple pared down look of Barnes which embodies the Simply Burbidge range commitment to quality construction and materials.

The stylish and practical off-the-shelf colours offer a mix of neutrals along with the more intense tones of Seal Grey, that perfectly match the way today's kitchen spaces are used, whilst enhancing the simplicity of this range's iconic shaker styling.

But if you want to create something more indulgent then just dive into the wider paint palette or even go for a bespoke colour burst.

We think a strong, stainless steel handle further reinforces this classic kitchen, but why not grab hold of a more delicate curved option or go for a cast iron effect finish to adorn your Barnes doors.
